Through our Canada, USA and Mexico offices, Latin America companies who are in the animal nutrition, animal health and swine production can access supplies, equipment and veterinarian products from North America .

We also offer swine consultant services for the animal nutrition, animal health and hog farmers in North America and Latin America. All our services are conducted in a professional and confidential manner.

TAEI support North American & European companies interested in opening or improving the swine, animal nutrition, animal health, poultry, cattle, horse, and companion animals markets in Latin America. We have 20 years experience in the American, Canadian and Mexican industries. Francisco Trejo, DVM president of the company has a Veterinarian and Master degree from The National Autonomous University of Mexico, UNAM.
